

# Family Promise of the Midlands

## 5-Point Star Service Model

### Homelessness Prevention

Stopping families from experiencing homelessness by preventing eviction and providing additional services as needed. Providing financial assistance to families in danger of losing their homes or help them move into new housing.

### Temporary Shelter

Through our traditional model in Host Congregations, utilizing various community partnerships or finding other creative housing solutions, we will support families experiencing homelessness by providing temporary shelter and case management services.

### Stabilization Services

Our Continuing the Promise program will ensure that graduating families remain stable in their housing, thus, reducing the recidivism rate back to homelessness.

### Tomorrow's Promise

Support students who are part of families having housing stability issues with enrichment activities including athletics, music and art.

### Transitional Housing

Supportive, temporary housing that serves to bridge the gap from homelessness to permanent housing.
